

The petrol pipe layout was modified to suit the new position of the petrol pump and filter as shown in the illustration below.

For part changes please refer to Spares Note No. 91.

Item No.83 GEARBOX SELECTOR FORK - 3rd & Top. JAVELIN & JUPITER

To prevent gear lever vibration the width of the third and top selector fork has been increased for a distance of approximately $\frac{5}{8}$ " (15.875mm) from the ends of the fork by .020" (.508mm) as shown below. With this modification the $\frac{3}{8}$ " (15.875mm) increased width portion of the fork only contacts the sliding sleeve groove when the sliding sleeve is being
